

Dear Krystal,

I would like to take this opportunity to say thank you so much for designing and creating my 'dream kitchen' - you turned the most ugly feature in my home into the most beautiful one - no mean feat!

There are some many choices of colours and designs available, and this being my first experience of renovation, I thank you for pointing me in the right direction and for not allowing me to make any mistakes.

I would also like to thank you for ensuring everything ran smoothly and to schedule hence making it as stress free as possible, especially as my husband was away to escape all the stress!

This was a good and positive experience for me and as all my friends can see, the result is sensational! My kitchen is now truly the heart of my home!

Cheers Krystal!

Julie Jones
