

Dear Krystal,

Just a quick note to say thanks for the great work you did in designing our kitchen in our Owner Build.

It is light, airy and functional, accomplishing exactly what your brief was.

It was a pleasure to deal with you and only wished we also had you supply and co-ordinate the cabinetry as well, then our Kitchen would undoubtedly have been completed on time and at a high quality of workmanship.

We will certainly recommend your services and use your design service again as we progress through our build particularly as we realise the small errors others have made in the design of the home that I am sure you will find a solution for.

Kind Regards

Deanna and Craig Shand
